Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claim 1 recites a burglar alarm light comprising a shell, a lamp set located in the shell, a shade coupled on a front end of the shell, and an **adjustment mechanism** located in the shell to adjust displacement of the lamp set wherein the **adjustment mechanism** includes, a seat, a moving member, a rotary member, wherein the adjustment mechanism adjusts the displacement of the lamp set to alter projection type of light, including converging or scattering, emitted by a light source.

Because none of the references disclosed the detailed structural limitations of the **adjustment mechanism** including, the first extended section of the seat has a first lug on the periphery thereof and a second lug extending inwards, nor is there any motivation to combine them, the claims are deemed patentable over the prior art of record. Claims 1 and 3-11 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

2. Examiner acknowledges that the applicant has amended independent claim 1 to incorporate previously indicated allowable subject matter, dependent claim 2, and claim

Art Unit: 2875

2 has been canceled without prejudice or disclaimer. Applicant also amended portions of the specification: page 2 -line 14 and 15, page 6 - lines 13.
